One of only two U.S.-published game to receive honor 2 years in a row

Games Magazine honored Enginuity Games flagship "3 Stones" game with inclusion in the prestigious "Games 100" list for the second straight year. It's very unusual for the same game to be included for 2 years in a row, and "3 Stones" is one of only two U.S.-published games so honored this year. "3 Stones", which has also garnered awards from Mensa, Parents' Choice, and Dr. Toy, is a part of Enginuity Games' Signature Collection of solid wood / solid glass games which includes the multiple-award winning "Doubles Wild" and "Soli2".

For more information or a complete catalog contact Enginuity Games at (888) 618-GAME, or +1 (408) 268-9740.
